Gloxinia
Hybrids
and
African
Violets*

**1958-1959
CATALOG**

THIS CATALOG IS VALID UNTIL
OCTOBER 1959

Dear Fellow Gardeners:

Some of you who receive this, our 1958-59 catalog, are old friends who have watched our development over the years. In fact it is due largely to this early interest and enthusiasm that we were encouraged to continue and expand. Our new friends may be interested to know a little of our beginning. Sixteen years ago I started with two Gloxinia plants in the sunporch of my home. By crossing these I obtained several very large flowers in a new color range, and from these have gradually been developed some of the beautiful plants that today may be found in our greenhouses. For many years this was my hobby, and now I devote my full time to the growth and development of the business.

Over these years the color and pattern range of Gloxinias has been greatly increased as well as the size of the flower. Slipper Gloxinias in the hybrid form are an exciting addition to every collection.

For the future our aim is to continually improve the foliage so that all our varieties will eventually have the quality of leaves that are found in our variety Trudy; to increase the color range, and propagate and sell true to name varieties that are outstanding; to foster an ever increasing knowledge and enthusiasm among our gardening friends, and to introduce other plants of merit in the Gesneriaceae family.

We are now growing over two hundred choice African Violets, adding to our collection each year better and newer varieties. We always have a good display at our greenhouses for those who are near enough to enjoy them.

Yours for better Gloxinias,

Albert H. Buell

VISITORS WELCOME: We are always pleased to have visitors at our greenhouses. People traveling long distances should contact us to be sure of a good display. **We are closed Sundays.**

GROWING INSTRUCTIONS: We have prepared printed booklets which will answer most of your Gloxinia and African Violet questions. If you have any additional problems we will always be pleased to help you. Full growing instructions are sent with each order.

OUR PLEDGE TO YOU: All our shipments are guaranteed to reach you in absolutely perfect condition, and to be true to description. **There is no need to return any doubtful shipments,** as we have complete confidence in your judgment. A short note from you will bring a prompt reply and a replacement at no cost to you.

Your complete satisfaction is our goal and greatest pleasure.

NOTICE TO OUR CUSTOMERS

Our customers mailing list is constantly being revised. Each one of you that has placed an order with us within the past three years will receive a copy of our 1959-60 catalog.

If you have not made a purchase and still wish a copy of our catalog we will be more than happy to send you one on request.

TUBERS

Buell's Glorious Named Varieties!

SOLD ONLY AS TUBERS

Thousands of Gloxinias blooming in our Greenhouse each summer is always a most spectacular and breathtaking sight. To pick the most beautiful among them would indeed be a difficult task, and it is very likely that no individual variety would win unanimous acclaim. However, during Mr. Buell's 16 years of growing experience he has developed a keen eye and discerning taste for the very finest. In order to become a "Named Variety" a plant must meet his high standards as to color, size, growth habit, excellence of foliage, and good general performance in the greenhouse for two years or longer. In making his decisions Mr. Buell is often guided by the unsolicited comment a variety is given by visitors to our greenhouses, as he feels that perhaps this is the best way of knowing what is most apt to please our thousands of mail order customers who may never have the opportunity to visit us.

We hope you will add some of our "favorites" to your collection and that you will share our pride and enthusiasm for them.

LARGE FLOWERING HYBRIDS

BLUE DELIGHT — This variety has caused many an "oh and ah" at the greenhouse. A solid blue border of about $\frac{1}{4}$ " on a pure white background. Excellent foliage. \$5.00/tuber. Scarce.

ELECTRA — A very flashy red variety. The brilliant red border blends into a delicate speckling as it meets a darker halo at the bowl of the bloom. A creamy white throat speckled in dark red extends the whole length of the tube. An exceptionally good grower, but needs good light to prevent leggy growth. \$5.00/tuber.

ORCHID — This could be classified as a pastel between pink and blue, the shade varying according to the amount of sunlight. The bloom is of medium size and was pictured in the book "Gloxinias — And How To Grow Them". Outstanding features of this plant are that it has shiny dark green leaves and is a very compact grower with abundant blooms. \$5.00/tuber.

PEACHES AND CREAM — Immense blooms of purest white with delicate suffusions of pink around the border. If you are fond of pastels this is one of the finest. \$5.00/tuber.

PINK SURPRISE — The delicate pink petals of this variety are artistically speckled in a darker shade, and edged with a very narrow border of solid pink. The creamy throat is speckled dark pink. This is a selection from one of our most popular groups, B-6. \$5.00/tuber. (Extremely Choice).

TRUDY — Named for Mrs. Buell this is one of our choicest varieties both as to bloom, pattern, and leaf type. The color is medium to bright red with a white border speckled in red. The throat has a variegated red pattern on a dark cream base. \$4.00.

ROYALTY SLIPPER SERIES

MIDNIGHT QUEEN — Our darkest Slipper Gloxinia. A rich dark purple of striking elegance. \$4.00.

RUFFLED QUEEN — A very dainty slipper of speckled pink. The lower petals are more densely speckled than the upper petals giving a bicolor effect, and the flower is delicately ruffled. This is a selection from our S-5 group. \$5.00/tuber.

SNOW QUEEN — Pure sparkling white. As far as we know this is the only pure white slipper type Gloxinia on the market today. \$5.00/tuber.

RED EMPRESS — The most outstanding of our Slippers to date. Very ruffled and a beautiful shade of red. The top two petals are a little lighter in color which adds to the over all effect. \$5.00/tuber.

LILAC PRINCESS — Very graceful. Lavender-Pink pastel. \$5.00/tuber.

Gloxinia Tubers

**in colors and patterns
to delight
an artist's palette!**

(bulbs to some folks)

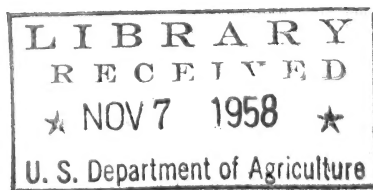

During the blooming season each year when thousands of magnificent plants turn our greenhouse into a veritable fairyland of color, we spend days tagging superior plants to be offered in these color groupings.

Each of the specially tagged plants is grown to maturity until the tubers are fat and well developed. Then the tubers are harvested and properly cured for just the right length of time. We have developed a special method of packing and shipping so that your tubers reach you in perfect moist condition. Our tubers are particularly easy to grow because they are harvested with their roots intact before shipment.

We are often asked if there are any advantages of tubers over plants or vice versa. It is true that occasionally one will outperform the other but the important points to consider are these. **Our tubers are not available and ready to grow until November.** Earlier bloom may be had by purchasing $2\frac{1}{4}$ " plants in October and early November. During the winter months tubers are advantageous as they can be packed better against freezing. In March plants take the advantage for early summer bloom as tubers may have lost some vitality even under our carefully controlled storage conditions.

A NOTE ABOUT TUBER SIZE: It is true that our Jumbo tubers usually produce the most blooms. However, our small tubers when grown under favorable conditions produce excellent plants. Some varieties grow much larger tubers than others so that it is possible to have a jumbo tuber in one variety the same size as a large tuber of another variety.

Our mailing list will be revised each year. New catalogs will be sent to all customers having placed an order with us since 1956. We will gladly send a copy to anyone else, upon request.

GLOXINIA TUBERS

LARGE FLOWERED HYBRIDS

(Shipments start late in November)

GROUP NO.

- B-1** Unusually striking shades of purple, velvety purple, and rich wine-purple.
- B-1a** Similar to B-1 but throat of flower white or a lighter shade of purple.
- B-2** Purple bordered blossoms with artistically speckled throats — in a wide range of varying shades.
- B-2a** Delicate purple or lavender border blending into a speckled throat.
- B-3** Suffusions of soft white and lavender laced with lovely intricate patterns of deeper lavender and purple.
- B-4** Shades of strong-hued purple enhanced with speckling on a white border.
- B-5** Gorgeous shades of brilliant red and scarlet. Solid colors without speckling. Huge ruffled blossoms of striking beauty.
- B-5a** Similar to B-5 but lighter in color.
- B-6** Deep pink to rosy red with artistically variegated throat.
- B-6a** Similar to B-6 but more delicate in color and pattern.
- B-7** Shades of rosy red, gayly enhanced with white borders heavily speckled with red into the throat. Scarce.
- B-8** Suffusions of soft white and pink laced with lovely intricate patterns of deeper pink speckles.
- B-9** Shades of pink.
- B-9a** White with pink border.
- B-10** White with purple border.
- B-10a** Lovely blossoms daintily bordered with blue blending into a throat of pure white. Scarce.
- B-11** We call this group "shades of plum". Some are completely solid color while others have some markings in the throat.
- B-11a** A lighter shade of Plum than B-11, with a variegation in the throat.
- B-11b** Pure white, bordered in light shades of plum.
- B-12** Flowers are basically purple with some speckling and a suffusion of red color.
- B-13** White Ruffles — A huge, ruffled, lacy creation, of sparkling brilliant white, with a delicate speckling deep in the throat. Some are tinted at the base of the petal.
- B-14** Bold, flashing blossoms in an unusual rainbow pattern of soft reds, and orange reds in subtle indescribable combinations.
- B-15** Large, graceful flowers of white, tinted with delicate shades of light pink or light blue. Pure white under some light conditions.
- B-16** Large ruffled white, artistically dotted in red. Scarce.

Our Enchanting *Slipper Gloxinias*

(available only in tubers)

Flowers of the Slipper Type Gloxinias are gracefully curved in the trumpet-throat like a large Fox-glove. They are rapidly gaining in popularity because of their gracefulness, profusion of blossoms, and long blooming period. Individual blossoms are not as large as the regular hybrids, but this quality adds much to their charm and daintiness.

We have been devoting a considerable amount of time to hybridizing the Slipper Gloxinias, and although our collection is still limited in scope, we believe it to be the most extensive in the world as it includes colors that have never been seen before in the slipper type Gloxina.

Our Slipper Gloxinia "Snow Queen"

SLIPPER TYPE HYBRIDS

- S-1** Shades of delicate blue. Small flowered, dainty and exquisite. **Extremely Scarce.** Give second choice when ordering.
- S-2** Shades of royal purple-blue. Relatively large flowered and handsome.
- S-3** Shades of red and soft rose. Fine large flowers of striking beauty.
- S-4** Shades of warm, bright raspberry rose, with a clear white throat. This is an exceptionally choice creation of luscious beauty. Rather large flowered, but still graceful and dainty. **Scarce.** Give second choice when ordering.
- S-5** A clear sparkling beauty of pure white, speckled and misted with varying degrees of delicate pink. Rather large flowered and very elegant. An exquisite new strain of slipper type.
- S-6** A clear sparkling beauty of pure white, speckled and misted with varying degrees of purple hue. Rather large flowered and very elegant.
- S-7** These are delicately tinted in pink or blue. They are original creations that probably will never be duplicated. A truly collectors item.

GLOXINIA MACROPHYLLA (Brazilian Gloxinia). Similar to Regina. Flowers are slightly darker and longer. Leaves are considerably darker, especially on the underside.

PRICES FOR GLOXINIA TUBERS

You have the privilege of making your own selection from any of our "B" and/or "S" series, at the following prices: —

	1	3	6	12
Small	\$.60	\$1.70	\$3.25	\$ 6.25
Large	1.00	2.80	5.25	10.00
Jumbo	1.50	4.15	7.85	14.95

Every tuber separately packaged and labeled.

★ ★ ★ ★ ★ ★

OUR OWN SELECTION

(ALL LABELED) AND DIFFERENT

Each season when tagging our tubers we find certain groups in abundance. In addition we find many plants which although strikingly beautiful do not fall into our color groupings or are not found in sufficient numbers to warrant a separate grouping.

We offer these at prices below our numbered varieties. Mr. Buell personally supervises the selection at shipping time, and as these tubers are all labeled you are assured of a varied assortment of beautiful patterns and colors. We consider this one of our finest offers to you.

Specially Priced At:

	1	3	6	12
Small	\$.50	\$1.45	\$2.70	\$ 5.25
Large	.80	2.30	4.50	8.75
Jumbo	1.35	3.85	7.50	14.00

★ ★ ★ ★ ★ ★

An ideal opportunity for those who do not have an established collection. All top quality tubers, guaranteed to grow, although **we do not know the color and no replacements are made when duplications occur.** The following prices apply to large flowering "B" series **ONLY. NO "S" series included:**

UNLABELED TUBERS

Strong, Healthy

Gloxinia Plants

Buell's Beautiful New Hybrids

SUPERBLY PACKED FOR SAFE SHIPMENT ANYWHERE

We wish it were possible for you to see how very, very carefully each plant for your order is handled and packed by well trained personnel. Each plant is specially packed at the top of the pot to hold it secure, then individually wrapped in wax paper plus other layers of paper to keep it moist and fresh during the trip — and snugly fitted into just the right size box.

These are well rooted, actively growing plants in individual 2¼" shipping pots. All you have to do upon arrival is transplant to any regular 5" pot, and the plants continue to grow and thrive right in your own living room.

AVAILABLE IN MIXTURE ONLY

(All large flowered hybrid type, no slippers)

Shipped September to December 15th and March thru May

SEEDS

Fresh and Vigorous

Buell's Gloxinia Seed

If you're the type of enthusiastic indoor gardener who enjoys the thrill and satisfaction of seeing tiny seeds pop through the soil, develop leaves, grow into mature plants, and finally burst into bloom, you should certainly try growing Gloxinias from seed.

All seeds are freshly harvested and constantly subjected to germination tests to guarantee freshness and vigor.

It is the most economical way to raise a large quantity of strong, healthy plants.

Under normal care Gloxinia seed will produce blooming size plants in 6 to 10 months. Seed may be sown at any time.

Buell's Special Mixture

Giant Flowered Hybrid Seed

Albert Buell's special Gloxinia seed is personally blended to assure an even distribution of all types and color combinations found in his new hybrids.

100 seed packet 75c 200 seed packet \$1.00 400 seed packet \$1.75

Buell's Slipper Type Gloxinia Seed

In this carefully selected mixture you will find many new exquisite colors, combinations of colors and dainty intricate effects.

Limited Supply Originators Package \$1.00

About 80% true to type

All seed sent prepaid via First Class Mail.

Cultural instructions included with each packet.

SEED PACKETS

STREPTOCARPUS HYBRIDS — Dainty flowers in pink, white, and purple shades, borne well above compact leaves which are long and interestingly shaped. Somewhat resembles the slipper Gloxinia. \$1.00

AFRICAN VIOLET - MIXED HYBRIDS — Mixture of new and favorite varieties. Should give an excellent assortment of singles and doubles. \$1.00

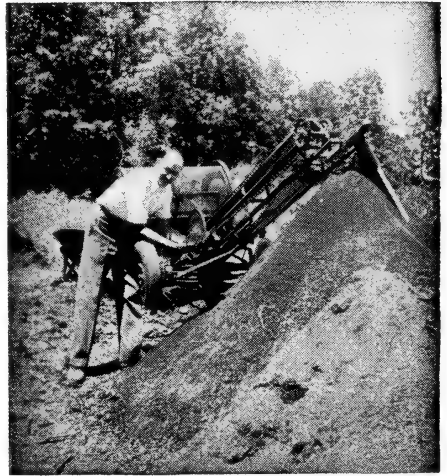

SOIL

Buell's Own Special

Pasteurized Gloxinia and African Violet Soil

This is the same soil that we use in our greenhouse to give us the spectacular blossoms which have given us our national reputation. It is prepared from our own formula after months of careful composting and by the proper blending of all important ingredients.

Another feature which every gardener values is the fact that it has been pasteurized electrically at a temperature sufficient to kill all weed seeds, as well as harmful fungi (such as the damping off fungi), and harmful bacteria.

Packed in special Polyethylene plastic bags to maintain it in proper moist condition.

(1 qt. soil is ample for potting 1 plant or tuber in a 5" pot)

1 qt. BAG .75	2 qts. \$1.20	4 qts. \$1.95
6 qts. \$2.50	10 qts. \$3.50	

For SOIL Add \$.20 per quart **for postage** west of Mississippi

STARTING MEDIA

FOR SEEDS & CUTTINGS

After experimenting for several years we have found that a blend of native Peat and Vermiculite serves as an excellent media for rooting cuttings. It gives very rapid rooting and an extensive root system, and plants transplant from this to soil with little or no set-back. Sufficient nutrients are derived from the peat to give the young plants a good start.

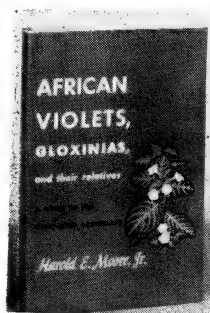

We also find this excellent for starting seed, especially fine seed as Gloxinia and African Violet.

Besides our own experience in the use of this media we have many enthusiastic customers who use our media exclusively.

Completely sterilized and ready to use just as it comes from the bag. Lasts indefinitely.

1 qt. BAG .75	2 qts. \$1.20	4 qts. \$1.95
6 qts. \$2.50	10 qts. \$3.50	

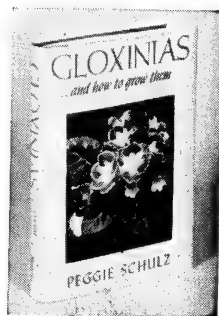

BOOKS

"African Violets, Gloxinias, and Their Relatives," By Harold E. Moore, Jr. The first comprehensive study of the entire field of African Violets and other Gesneriads. Described are almost 100 species and their varieties for window-ledge, greenhouse and garden with full details on culture and propagation. Illustrated by Marion Sheehan. 323 pages, 335 drawings, 5 full-color plates $5\frac{3}{4}'' \times 8\frac{1}{2}''$. Price \$10.00.

"GLOXINIAS — AND HOW TO GROW THEM"

By Peggie Schulz. In this first book ever to be published on the Gloxinia, Mrs. Schulz has carefully outlined the care of Gloxinias from seedling or tuber stage to flowering and then through the dormant period. In addition to details of culture other interesting items include facts concerning growing Gloxinias under fluorescent lights, highlights on intriguing members of the same family, hints on producing your own seed etc. In addition 4 pages in full color show the newest in Gloxinias, and 21 how-to drawings are most helpful. 128 pages, 11 chapters. Price \$3.50.

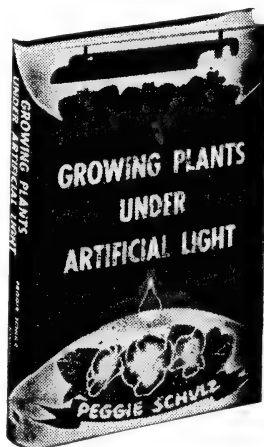

"AN EASY GUIDE TO AFRICAN VIOLETS"

By WILLIAM L. MEACHEM. Are you growing your first African Violets, or wondering why your fiftieth plant is not blooming properly? You need not wade through hundreds of pages of old-fashioned advice to find the answers. Modern growers know that African violets have simple needs and can be grown successfully and easily with a minimum of trouble. In this step-by-step guide, you learn how to have lots of flowers almost all year. — All your questions are answered. For beginner or expert, it is all here — an easy guide and an absorbing hobby. Price \$1.95.

"GROWING PLANTS UNDER ARTIFICIAL LIGHT"

By PEGGIE SCHULZ. At last a book on the twentieth century's greatest boon to gardeners — **Artificial Light!** Here is the complete how-to on this foolproof way to make your whole house an Eden. You can have a breath-taking display of African violets, Gloxinias, Begonias, Tulips, and many others even in a dreary basement, a dark attic, even a kitchen counter under a cabinet. Mrs. Schulz describes various types of fixtures; tells how to contrive your own setup from bridge or desk lamps, etc. This practical non-technical book is indeed an invaluable guide to home gardeners, an inspiration to interior decorators who want to use groups of plants, for so many decorating ideas. Price \$3.50.

HELPFUL ORDERING INFORMATION

We acknowledge all orders. During our peak rush of October, November and December this may take a few days.

POSTAGE — West of the Mississippi add 20c per quart of SOIL to cover postage. All other items sent postpaid anywhere.

CONNECTICUT RESIDENTS — All Connecticut residents add 3% sales tax.

CANADIAN RESIDENTS — On all shipments, except seeds, to Canada it is necessary for the customer to obtain an *import* permit from the Bureau of Plant Inspection from your province. This should accompany all orders. We do not recommend plant shipments to Canada.

SUBSTITUTIONS — Be certain you check the space provided on the order blank concerning substitutions. When necessary we first substitute size, always giving you equal or greater value. If we are completely sold out of a variety we will try to substitute the most nearly similar variety.

QUESTIONS — If you have questions please write them on a separate sheet with your name and address and not on the order blank. This helps us to speed a reply to you.

[illegible]

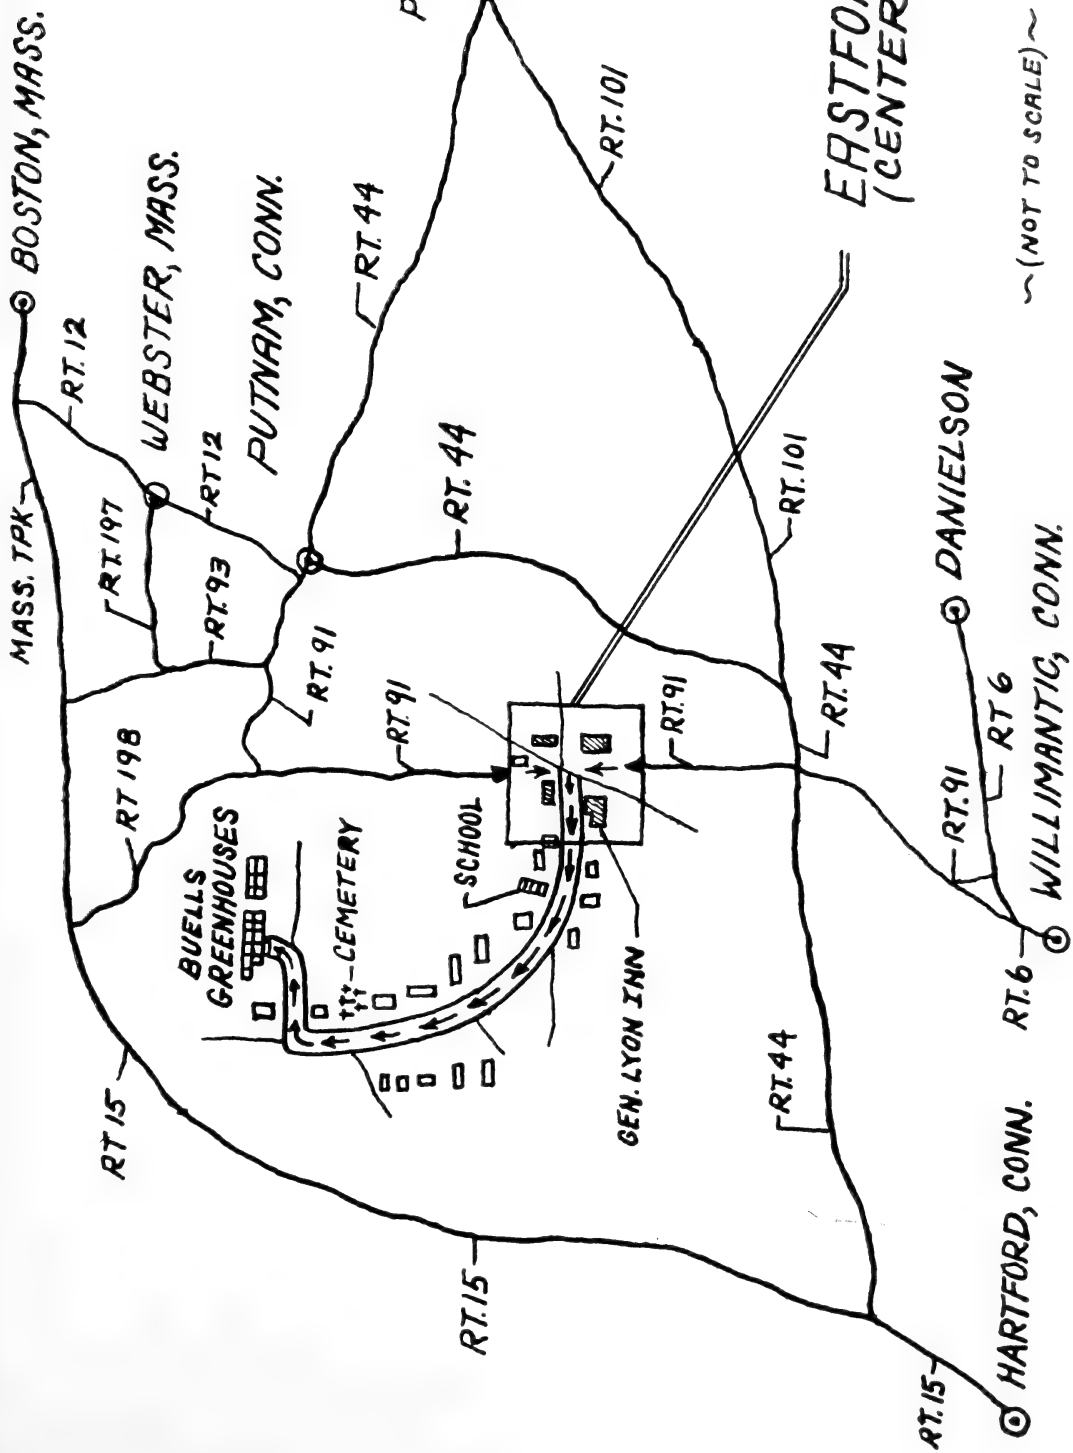

Please Check One. Regarding Violet Orders

Note: If we are temporarily out of the variety you order would you prefer us to

- ☐ Send a similar variety of equal or greater value.
- ☐ Hold your order until the variety becomes available.
- ☐ Prefer Refund.

Did You Remember?

SOIL — page 10. The ground freezes hard in winter!

SEEDS — page 9. A real thrill to grow your own from seed to flower.

PEG'S BOOK — page 11. Mighty interesting even though you are a "Glox" authority.
A good gift item.

XMAS, BIRTHDAY, OR JUST A REMEMBRANCE — What better way to say thank you or Merry Xmas. Saves a lot of shopping about and is certain to please.

Just send us the card you wish enclosed. *Xmas orders must reach us by November 30 and will be sent in early December to avoid delay during the Xmas rush.*

AFRICAN VIOLET SOCIETY MEMBERSHIP — May we suggest a Gift Certificate for that special occasion.

GLOXINIA SOCIETY MEMBERSHIP — (Inside back cover). This will bring you untold pleasure and open up many new horizons. Helps keep you up to date.

RAPID-GRO — page 33 A real boost for all your plants and so simple to use.

STARTING MEDIA — page 10. Keep some on hand so you will always be ready to root a cutting that a friend may give you. Excellent for starting seed.

African Violets

For the past sixteen years we have specialized in the growing and hybridizing of Gloxinias. During this time we found that many Gloxinia enthusiasts were also ardent African Violet admirers, so six years ago we started our collection of African Violets. Since the Gloxinia and African Violet are members of the same plant family, Gesneriaceae, it seems particularly appropriate that we grow both of them.

Our Violet collection now includes over 200 varieties, and as new ones are introduced which we feel are distinctly different or better than existing varieties we will plan to grow them and offer them to you.

There is already too much duplication among African Violet varieties. We have listed only those which have proven to be excellent varieties in our greenhouse, and which we consider to be distinctive in one or more characteristics.

All our merchandise is guaranteed to arrive in good condition and be true to name. Your satisfaction is our goal and greatest pleasure.

AMONG THE OUTSTANDING NEWER VARIETIES

PRICES FOR LISTED VARIETIES:

Leaves: .50 each prepaid. (Available immediately. Not shipped during colder months, approximately December to April.)

Minimum Leaf Order \$1.00

Plants: \$2.00 each prepaid. (These are sturdy plants in 2¼" pots. Shipped September to December 15th, and March through June.)

WINTRY ROSE — Double red-wine blossom with frosted white edges. Very nice foliage.

*Sorry, no plants until Spring.

AFRICAN VIOLETS

"Supreme" Type Violets

The "supreme type violets are typified by having large flowers and rather heavy textured foliage. Some people find that some of them do not bloom quite as abundantly as other varieties, but their immense flowers make them greatly sought after by the connoisseur. Some of these propagate and grow more slowly than other varieties and therefore we must charge slightly more for them. As the foliage is often large and brittle, we sometimes find that it is better to ship slightly *smaller plants* in this grouping to assure safe arrival.

PRICES FOR "SUPREME" VARIETIES:

Leaves: .35 each. 3 for \$1.00, 6 for \$1.75 prepaid. (Available immediately. Not shipped during colder months, approximately December to April.)

Minimum Leaf Order \$1.00.

Plants: \$1.50 each prepaid. (These are sturdy plants in 2¼" pots. Shipped September to December 15th, and March through June.)

If you wish Air Mail Delivery, please add 20% to above prices. No postage stamps accepted.

AMERICA — Enormous light blue, slightly cupped, single flower.

ANGEL LACE — Large single blooms with lilac blue fringe, on dark green semi-supreme foliage.

ANN HOFFMAN — Supreme of Strike Me Pink. Double Cherry Pink blossom with supreme girl type foliage.

BLUE HEIRESS — Extremely large single flowers of medium blue above heavy textured girl foliage.

CARA MIA — Huge double blue and white blossoms on improved dark green foliage.

CHENILLE — Deep purple ruffled single flowers.

JEZEBEL — Large lavender ruffled flower with supreme girl foliage.

KING KONG — A very large single dark blue flower.

NANCY HANKS — Light blue ruffled single blossom, on semi-supreme green foliage. Profuse bloomer.

PANSY SUPREME — A very large single light blue with a light border.

PINK CAMELLIA — Very large double shell pink. Supreme of Pink Ideal.

PURPLE MONARCH — Extremely large single purple.

ROSALINDE — Huge double frilled orchid bicolor blossom, dark green foliage with red underneath.

ROYAL LACE — Large single bloom with blue fringe, on dark green semi-supreme foliage.

***ROYAL MASTERPIECE** — A very ruffled royal purple single blossom with a light chartreuse edge. Large girl foliage.

RUFFLED HEIRESS — Large dark blue single, with a very ruffled edge.

RUFFLED QUEEN — Dark purplish-burgundy single flowers of this variety are very finely cut along the edge of the petals to give a ruffled effect. Extremely popular.

SUNRISE SUPREME — A red-wine bicolor, single blossom. Color is intensified towards tips of petals.

THUNDERHEAD — World's largest single white on improved green foliage.

- STAR GIRL** — Blue and white blooms, girl type foliage.
- SUGAR BABE** — Pinkish lavender with very light edge. Girl foliage.
- SUGAR PLUM GIRL** — A medium red-purple with a distinct white edge. Girl foliage.
- TINKERBELLE** — Blue with white ruffled edge. Wavy foliage.
- TONKA DELIGHT** — Ruffled white with a suffusion of light blue on the edge.
- TWINKLE TOES** — Cupped white ruffled, sweet pea type, blooms with deep lilac edge on dark green girl foliage. Bloom profusely. Small plant. Not miniature.
- VELVET GIRL** — Flowers cupped and a deep burgundy. Darker towards petal tips. Girl type foliage.
- WHITE HEATHER** — A white with pink lavender tips. Cupped flowers. Girl foliage.

AFRICAN VIOLETS

Species

(Singles)

DIPLOTRIKA — Dainty light blue. Profuse bloomer.

GROTII — This is the hanging African Violet. Large rounded light green leaves and light blue flowers. Makes a very graceful plant. Profuse bloomer.

ORBICULARS — Nearly white with blue center. Very small. Extremely attractive. Profuse bloomer.

TONGUENSIS — Medium size light blue flowers. Long narrow foliage. Profuse bloomer.

MEMO TO GARDEN CLUB PRESIDENTS:

Many Garden Clubs have already enjoyed visiting our greenhouses, and we welcome any of you who would like to plan such a trip. Some groups have made reservations in advance for luncheon at the charming General Lyon Inn here in Eastford, and then toured our greenhouses in the afternoon. We are open from 7 A. M. to 5 P. M., six days a week. Evenings by appointment **ONLY**. We are **CLOSED ALL DAY SUNDAY**.

If you contact us in advance we can advise you of the best time for a good display.

We also have two sets of kodachrome slides 2" x 2". One set on Gloxinias and one set on African Violets. We will loan these slides for use at your Club meetings. There is a minimum handling charge of \$2.00 for each set.

If your club is interested in buying a substantial quantity of Gloxinia tubers write us asking about our special Garden Club discount.

If you have members particularly interested in African Violets they might be interested to know that we grow over 250 varieties which we sell at the greenhouse.

Little Items of Great Importance

RAPID-GRO — We are often asked what fertilizer we use in our greenhouse for supplemental feeding. For several years we have used Rapid-Gro exclusively and find it does an excellent job. By popular request, we have decided to offer it in our catalog again for the third year. Simple to use as you merely dissolve in water and water your plants.

1 pound can \$1.35 including postage makes 176 lbs. of liquid fertilizer!

PLASTIC LABELS — If you are tired of wooden labels rotting or of plant names being difficult to read on discolored labels, then here is your answer. Snow-white plastic labels on which you can write with pencil, and they last forever. You will enjoy having your plants permanently and neatly labeled, and you may use them over and over as they are easily erased.

100 4½" plastic labels \$1.25

ACHIMENES or Cupid's Bower

Few plants can equal the loveliness and appeal of a pot of Achimenes in full bloom . . . one of the best summer flowering plants for growing in pots, hanging baskets and porch boxes. Cupid's Bower grows well in any part of the U. S. except dry, arid regions. They thrive best in partial shade along with plenty of warmth and humidity. The tiny tubercles are planted from December through April, and bloom from late spring until fall. The tiny catkinlike tubercles multiply very rapidly and by the end of the first year you will have sufficient increase to plant many additional pots the following spring.

For the best display plant 6 tubercles to a 6" bulb pan.

VARIETY AMBROISE VERSCHAFFELT

AVAILABLE IN FEBRUARY . SUPPLY LIMITED . ORDER EARLY

ADELAIDE — Pale lavender-blue flowers strongly marked at the throat with purple and yellow.

ADELE DELAHAUTE — Light purple violet.
